PROFESSIONAL SUMMARY

Quality Assurance Engineer with 3+ years of experience in manual, functional, and automation testing. Currently specializing in automation using Playwright with TypeScript, developing real-world automation frameworks including data-driven testing, reusable components, and robust test architecture.

Experienced in Agile methodologies (Scrum, Kanban), CI/CD pipelines (GitHub Actions, Jenkins), version control (GitHub, Bitbucket, GitLab), and defect management (Jira, ALM Octane). Solid foundation in functional, regression, API, and database testing with strong problem-solving and collaboration skills.

TECHNICAL SKILLS

- QA Automation: Playwright + TypeScript, Selenium + Java
- CI/CD: GitHub Actions (current stack), Jenkins (previous experience)
- Version Control: GitHub (current), Bitbucket, GitLab
- API Testing: Postman, SQL Server
- Testing Types: Functional, Regression, Smoke, Database Validations
- Defect Management: Jira, ALM Octane
- Agile Methodologies: Scrum, Kanban
- Operating Systems: Windows, Linux, MacOS

PROFESSIONAL EXPERIENCE

NEORIS - QA Engineer

February 2024 - April 2025

- Performed functional testing and supported automation pipelines using Jenkins, Bitbucket, and Git.
- Managed test data preparation and executed automated test runs.
- Collaborated with Agile development teams to ensure timely and stable software releases.

NTT DATA - QA Engineer

November 2023 - February 2024

- Designed and executed manual test cases, smoke tests, and database validations.
- Logged and tracked defects using Jira.
- Participated in Agile sprints and regression cycles.

BANORTE - QA Lead

May 2023 - October 2023

- Led QA efforts coordinating functional and regression testing for banking applications.
- Estimated test efforts, collaborated with developers and external vendors.
- Managed defects and documented testing lifecycle.

OXXO - QA Engineer

April 2022 - February 2023

- Conducted functional and regression testing on POS systems.
- Managed defect tracking and collaborated with development teams within Agile processes.

PERSONAL AUTOMATION PROJECTS (GitHub Portfolio)

- Developed Playwright automation test suites using TypeScript for web applications.
- Applied data-driven testing principles with reusable component structures.
- Built modular tests with step-based architecture and screenshot capture for reporting.

- Portfolio available at: <https://github.com/mralexis99r>

EDUCATION

Administrative Computer Engineering

Universidad TecMilenio, 2017 - 2022
