PROFILE

QA Engineer with more than 4 years of experience across manual, functional, automation, integration, API, data, and performance testing. I turn requirements and user stories into clear coverage, maintain automation assets, and work with delivery teams to make quality risks visible before release.

CORE QA CAPABILITIES

Test analysis and design	Selenium + Java + TestNG	Playwright + TypeScript	API testing + Postman
SQL and data validation	Gatling + JMeter	Regression and integration	CI/CD and Agile delivery

PROFESSIONAL EXPERIENCE

AXITY CURRENT

Dec 2025 - Present

QA Automation Engineer

- Analyze requirements and user stories to design manual, integration, and end-to-end test coverage.
- Maintain existing automation and create Selenium and TestNG scripts for new test cases.
- Execute performance and user load testing with Gatling, Java, and JMeter in a Scrum team.

Environment: Selenium | Java | TestNG | Gatling | JMeter | Scrum

SWBC

Sep 2025 - Dec 2025

QA Engineer

- Performed primarily manual testing according to project needs.
- Maintained existing automated test cases using Selenium and Java.

Environment: Manual Testing | Selenium | Java

NEORIS

Feb 2024 - Apr 2025

QA Engineer

- Performed functional testing and supported automation pipelines.
- Prepared test data and executed automated test suites.
- Collaborated with Agile teams to maintain stable releases.

Environment: Jenkins | Bitbucket | Git | Agile

PROFESSIONAL EXPERIENCE

NTT DATA
QA Engineer

Nov 2023 - Feb 2024

- Designed and executed manual test cases, smoke tests, and database validations.
 - Logged and tracked defects throughout sprints and regression cycles.
- Environment: Jira | SQL | Scrum | Regression Testing

BANORTE
QA Lead

May 2023 - Oct 2023

- Coordinated functional and regression testing for banking applications.
 - Estimated testing efforts and collaborated with developers and external vendors.
 - Managed defects and documented the testing lifecycle.
- Environment: Functional Testing | Regression Testing | Defect Management

OXXO
QA Engineer

Apr 2022 - Feb 2023

- Performed functional and regression testing on point-of-sale systems.
 - Tracked defects and collaborated with development teams in Agile processes.
- Environment: Functional Testing | Regression Testing | Agile

SELECTED QA PROJECTS

Booking UI Automation	Playwright, TypeScript, JSON data, search and filtering coverage.	github.com/mralexis99r/Booking-automation
Selenium Java Automation	Java 17, Selenium, TestNG, Page Objects, and JSON test data.	github.com/mralexis99r/selenium-java-automation

EDUCATION

Administrative Computer Engineering | Universidad TecMilenio | 2017 - 2022
